2017 Te Kano Blanc de Noir

A fresh, mineral wine with subtle aromas of nashi pear, peach and citrus blossom. A rich fruit entry with concentrated flavours of peach and pear leading to a dry finish.

2017 Vintage

Spring and early summer were cool and windy. A well-timed and fortunate period of hot weather in late summer carried the fruit through to maturity with excellent flavour development.

Vineyards

The Eliza vineyard delivered the perfect fruit for this wine, with bright fresh acids and delicate flavours and aromas. The heavy clays and alluvial gravels of this block lend themselves to bigger bunches and berries, yielding juice with just the faintest touch of pink, and ultimately a brilliant, pale straw coloured wine.

The Abel clone retained its acidity through the ripening period, allowing us to wait for the perfect flavour development without losing the crispness and vibrancy that make this wine so refreshing.

Varietal

100% Pinot Noir, clone Abel

Winemaking

The grapes were delicately whole-bunch pressed using a long and gentle pressure to ensure the minimum of colour was extracted from the skins. A very cool and long fermentation in stainless steel was used to preserve the delicate aromatics and elegant structure typical of this wine.

Cellaring..... Drink now to 2019

Serving.....Serve at 8-10°C

Technical Data

pH.....3.47

TA.....6.16

Residual Sugar.....2.5g/l

Brix.....23.1

Alcohol.....13.5% v/v

RRP.....\$27

2017 Te Kano Rosé

Pale-salmon in colour, this dry Rosé has aromas of peach, strawberry and pear. Initial flavours of ripe strawberry unfold into crunchy red apple and pink grapefruit leading into a crisp refreshing finish.

Vintage

Spring and early Summer were cool and windy. A well-timed and fortunate period of hot weather in late summer carried the fruit through to maturity with excellent flavour development.

Vineyards

The Jerome vineyard was chosen for this Rosé, to capture the fresh, red berry flavours typical of the site. The tendency of clone 5 towards supple, plush red fruit notes contrasted nicely with the devigorating influence of Jerome's sandy soils, resulting in a wine that delivers fresh, vibrant fruit characters and a structural edge.

Varietal

100% Pinot Noir, clone 5.

Winemaking

100% hand harvested and whole bunch pressed. A long, cool fermentation in stainless steel was used to preserve freshness and aromatics.

Cellaring.....Drink now

Serving.....Serve at 8-10°C

Technical Data

pH3.37
TA6.1
Residual Sugar.....6.8g/l

2017 Te Kano Pinot Gris

A concentrated and rich off-dry style Pinot Gris with vibrant aromas of stone fruit, pear and spice. Flavours of peach and pear flesh out the entry into the palate, with ginger and spice notes unfolding.

Vintage

Spring and early Summer were cool and windy. A well timed and fortunate period of hot weather in late Summer carried the fruit through to maturity with excellent flavour development.

Vineyards

100% Jerome. The characteristic structure and bright fruit flavours of the Jerome vineyard are well suited to Pinot Gris. Naturally low in vigour, the sandy soils produce smaller than usual berries with intense flavours and a hint of phenolics, making for a structured and complex example of a classical varietal.

Varietal

100% Pinot Gris - clones 40A and Selection Oville.

Winemaking

100% hand harvested and whole bunch pressed. Slow and cool fermentation in stainless steel was used to retain the fresh varietal notes and clean finish.

Cellaring.....Drink now to 2019.

Serving.....Serve at 8-10°C

Technical Data
